

Earth Day 2024

Event Date

Sat, Apr 20 2024, 9am - 1pm

On a spring day in 1970, 20 million Americans joined together for peaceful demonstrations in favor of environmental reform. Not only did this mark the first Earth Day, it also continued the growth of the environmental movement, and even helped spawn the creation of the Environmental Protection Agency.

[Earth Day](#) now includes events in nearly 200 countries and countless communities around the globe – including Troutdale.

The City is hosting its own Earth Day event at [Columbia Park](#) from 9:00 a.m. to 1:00 p.m. on Saturday, April 20. We will be pulling invasive weeds, planting native plants, and picking up litter. Following the event, after everyone has worked up an appetite, we will have tables and chairs set up under the picnic shelter where a pizza lunch will be served.

Special thanks to students from the [Reynolds Learning Academy](#) who are helping City staff with the Earth Day prep and to our sponsors at [SOLVE](#), [East Multnomah Soil & Water Conservation District](#)!

For more information, please contact City of Troutdale Event Coordinator Tatjana Twerdochlib at 503-674-3308.

Address

Columbia Park
1900 SW Cherry Park Road
Troutdale, OR 97060
