

Maps and Geographic Information Systems (GIS)

Welcome to the City of Troutdale's GIS Website

Our GIS section, part of the Engineering Department at Public Works, provides various mapping services to support the City of Troutdale. Some current uses of GIS within the city include cartography, planning, zoning, street improvements, and infrastructure management (water, storm, and sewer utilities).

We are dedicated to providing customers with access to geographic information through [interactive maps](#), [published maps](#), and [data query tools](#). To improve our GIS services, we would like to hear from you. Please email questions and/or suggestions to [gis \[at\] troutdaleoregon.gov](mailto:gis@troutdaleoregon.gov).
